THE BEAUTY OF THE UNEXPECTED

At the heart of Robern is a belief that the best things in life are unexpected, which is why we treat everything we craft — from mirrors to vanities, from medicine cabinets to lighting collections — as an opportunity to go above and beyond what anyone might expect. It's the implementation of thoughtful and surprising design, technology and quality materials that can truly turn a product into a meaningful, highly personalized experience. And to us, there's nothing more beautiful than that.

SAVANT

PERSONALIZED
TUNABLE WHITE TASK LIGHTING

Set the perfect task lighting scenes to mimic the lighting of your activity or destination

PERSONALIZED LIGHTING FOR YOUR SELF CARE NEEDS

Made easy with Savant User Interfaces

LIGHTING

QUALITY OF LIGHT

Discover how quality task lighting can transform your routine. Robern® Lighting offers the best LED lighting output in its class – bright enough for precise tasks, dimmable for a relaxing bath, with precise color rendering and an even, consistent glow.

LED COLOR TEMPERATURE (KELVIN)

2700 KELVIN 3000 KELVIN

WARM WHITE LED LIGHTING
Warm, relaxing tones (2700K/3000K) replicate indoor light to help you unwind before bed or ease into your morning.

4000 KELVIN

COOL WHITE LED LIGHTING
Cool, invigorating tones (4000K) simulate bright daylight to jumpstart your day and provide ideal task lighting.

VARIABLE

ADJUSTABLE LED LIGHTING
Variable lighting option lets you fine-tune your color temperature between warm (2700K) and cool (5600K) tones.

Bright, consistent output lets you see yourself in the best light.

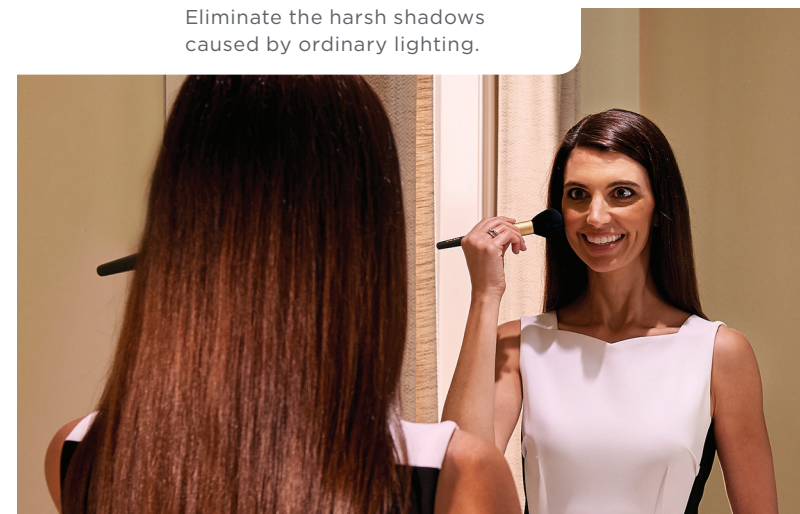

COLOR RENDERING INDEX (CRI) Robern Lighting offer remarkably accurate color rendering with a CRI value of 90+ and R9 of 50+. An R9 value of 50+ in conjunction with a CRI of 90+ is needed to accurately render colors, bring out skin tones and accurately match makeup to skin tone.

LIGHT DIRECTION AND OUTPUT
The right light is achieved by a combination of high lumen output and proper placement in relation to the face and body. Robern Lighting has been carefully designed to enable you to see yourself in the best light:

- Eliminate dark shadows
- Experience bright, even task lighting
- See rich, saturated tone in your reflection
- Be confident that lighting stays consistent, even for close up tasks

Eliminate the harsh shadows caused by ordinary lighting.

Framed Lighted Mirror

CORE CABINETS WITH THIN LIGHTING

Affordable yet luxurious, the Core Cabinets with Thin Lighting provide a modern, versatile and unique design option that is easy to install.

FEATURES & BENEFITS

- Seamless and flush aesthetic creates a visually clean cabinet and light installation
- Light provides ambient lighting for a room with a soft glow that envelops a space and onto the wall with enough light to function and provides a consistent level of lighting
- Warm, relaxing tones (3000K) that replicate indoor lighting
- Remarkably accurate color rendering with a CRI value of 90+ and R9 of 50+, so you can see your truest reflection
- Thinner lighting profile is ideal for urban spaces with a style that is reversible (rotate light pattern inside or outside) for ease of installation
- Dimmable LED to add ambiance and can be used as a night light to allow for wayfinding at night for safe trips to the bathroom
- Electric option includes one 15A, 120VAC outlet (2 plugs)
- Constructed to operate in high humidity or damp spaces — ETL/UL Certified

CONSTRUCTION & INSTALLATION

- Durable rust-free anodized aluminum and glass construction — resists intense moisture, ensuring long-lasting beauty
- Quiet close Safeseal™ Gasket with sealed corners on cabinet body
- 3 mirror design — rear of cabinet and both sides of door
- Concealed finger pull-door edge
- Diffuser built into the product eliminating the need for plastic diffusers to be purchased separately, reducing eye strain with no dark/hot spots
- Cabinets with lighting can be ganged horizontally, offering semi-custom configurations
- Ease of installation: build the lighting and cabinet configuration prior to placing in the wall using keyhole installation brackets and quick plug-in wire connectors, making installation a cinch
- Add-On Kit available for larger installations

SPECIFICATIONS

SIZE (CABINET AND LIGHTING COMBINED)

Width: 22-³/₄" (1-³/₈" + 20" + 1-³/₈"), 26-³/₄" (1-³/₈" + 24" + 1-³/₈")

Height: 30", 40"

Depth: 4"

LIGHTING SPECIFICATIONS

Kelvin: 3000K

Color Rendering Index: 90+

R9 Value: 50+¹

CONFIGURABLE OPTIONS

- Hinge Options: Non-handed, Left or Right Hinge
- Electrical packages: Non-electric, Electric

¹ Based on the measurements of a subset of sizes, shapes, and lighting styles

VERTICAL LIGHTED MEDICINE CABINET

With its vertical design, Vertical Lighted Cabinets feature state-of-the-art technology, superior task lighting, and luxurious finishes to create a cutting-edge storage solution that is seamlessly functional and beautifully versatile.

FEATURES & BENEFITS

- Unique vertically opening, no-swing door allows for unobstructed installations
- Position-hold door-opening mechanism lets you open the door as low or as high as you need
- Aluminum handle for effortless two-finger lifting
- Warm, relaxing tones (2700K) that replicate indoor lighting
- Remarkably accurate color rendering with a CRI value of 90+ and R9 of 50+, so you can see your truest reflection
- Light direction and output eliminates dark shadows, provides bright, even task lighting and rich, saturated tone in your reflection
- Dimmable LED task lighting to 1% lets you select the ideal brightness for any task
- Two electric package options: Electric only and Electric with Night Light and Defogger
- Power when and where you need it most, the electric column features two USB charging ports and two 15A, 120VAC tamper resistant outlets (3 plugs), to provide power for items such as electric razors and curling irons
- The night light provides a soft light that illuminates to help locate items in the middle of the night. Programmable night light in 12-hour increments. Press the button to turn the night light on/off without affecting the programming
- Defogging technology ensures a clear reflection. Turn on with a push of a button and built with a 45-minute timer. An LED indicator light lets you know that the defogger is turned on
- Sensor controlled, low wattage interior LED light
- Cantilever Shelving: clean interior due to “hidden” shelf adjustments
- Constructed to operate in high humidity or damp spaces — ETL/UL Certified

CONSTRUCTION & INSTALLATION

- Durable rust-free anodized aluminum and glass construction — resists intense moisture, ensuring long-lasting beauty
- Able to do behind faucet installation due to vertical opening of cabinet
- Meets ADA requirements for door opening force for sliding doors
- A minimum of 48-½” is needed from bottom of cabinet to finished ceiling

CORE LIGHTED MIRRORS

Perfect light is now within reach. The Core Lighted Mirror Collection enhances your everyday routine with the highest quality of lighting in its class.

FEATURES & BENEFITS

- Choose between warm, relaxing tones (2700K) that replicate indoor lighting or cool, invigorating tones (4000K), which simulate bright daylight
- Light direction and output eliminate dark shadows, provides bright, even task lighting and rich, saturated tone in your reflection
- Remarkably accurate color rendering with a CRI value of 90+ and R9 of 50+, so you can see your truest reflection
- Dimmable LED task lighting to 1% lets you select the ideal brightness for any task
- Defogging technology ensures a clear reflection
- Flip Installation: the 48" x 36" mirror can be flipped to 36" x 48" to give two size options for a home
- Select models tested and certified to California Title 24 standards and meets JA8 2016 requirements with up to 60% more lumen output than the standard model
- Constructed to operate in high humidity or damp spaces — ETL/UL Certified

CONSTRUCTION & INSTALLATION

- Durable rust-free anodized aluminum and glass construction — resists intense moisture, ensuring long-lasting beauty
- Diffuser built into the product eliminating the need for plastic diffusers to be purchased separately
- Fully encased lighting construction eliminating exposed LEDs and electrical components
- Includes installation hardware with easy installation via Plug and Hang System. Install mirror by plugging into an outlet behind the mirror, eliminating the need to bring back an electrician to install or remove — making it a cinch for both new construction and renovations.
- Requires 120 VAC 20 amp GFCI circuit protected wall outlet

TITLE 24 COMPLIANT For Title 24 Compliance in residential and commercial projects, Core Lighted Mirrors are certified High Efficacy to California Title 24 performance requirements. Our Title 24-Compliant product is certified as High Efficacy with up to 60% more lumen output with a CRI value of 90+ and R9 of 50+.

FRAMED LIGHTED MIRRORS

The sophisticated interplay of premium task lighting and museum frames makes the Framed Lighted Mirror an undeniably exquisite focal point in a variety of styling spaces.

FEATURES & BENEFITS

- An assortment of styles and sizes to accentuate and meet the needs of a variety of styling spaces
- Museum frames showcase a $\frac{3}{8}$ " gap between the edge of the mirror and the overall frame. The lighting and gap work together to create an even, uniformed illumination across the frame and finishes while providing ambiance and task lighting.
- Slim Museum Frame: for a shadow box effect and to complement a modern aesthetic, the sleek profile creates a minimalist look
- Chamfer Museum Frame: the angled design adds dimension for a unique look that pairs well with transitional and traditional environments
- Match or coordinate fixtures in your styling space with four popular metal frame finishes: Chrome, Polished Nickel, Matte Gold, Matte Black
- Warm, relaxing tones (2700K) that replicate indoor lighting
- Light direction and output eliminate dark shadows, provides bright, even task lighting and rich, saturated tone in your reflection
- Remarkably accurate color rendering with a CRI value of 90+ and R9 of 50+, so you can see your truest reflection
- Dimmable LED task lighting to 1% lets you select the ideal brightness for any task
- Defogging technology ensures a clear reflection
- Select models tested and certified to California Title 24 standards and meets JA8 2016 requirements with up to 60% more lumen output than the standard model
- Constructed to operate in high humidity or damp spaces — ETL/UL Certified

CONSTRUCTION & INSTALLATION

- Durable rust-free anodized aluminum and glass construction — resists intense moisture, ensuring long-lasting beauty
- Plated chrome and polished nickel finishes provide easy upkeep, exceptional durability, and a timeless look that complements any design
- Anodized matte gold and matte black finish options are easy to maintain and won't chip, peel, or fade — so you can enjoy their beauty for years to come
- Includes installation hardware with easy installation via Plug and Hang System. Install mirror by plugging into an outlet behind the mirror, eliminating the need to bring back an electrician to install or remove — making it a cinch for both new construction and renovations.
- Requires 120 VAC 20 amp GFCI circuit protected wall outlet
- Hang in portrait orientation only
